

Penguin Match

Note Name Recognition Game

Penguin Match

Match the girl penguins (treble notes) to a corresponding boy penguin who showcases the correct letter on their belly and match the boy penguins (bass notes) to the corresponding girls.

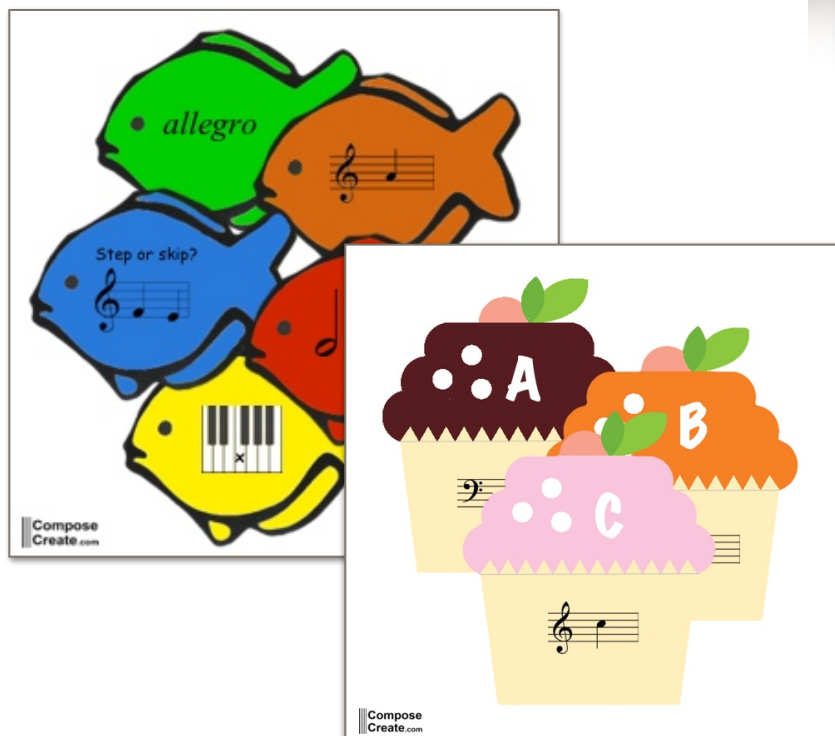

Printing:

Simply print, laminate, and cut on the grey lines. For best results, choose “actual size” in your print settings (rather than “fit to page”).

Uses:

Time your students to see if they can beat their own time, or have a studio wide contest to see who can match them most quickly or who can belong to the “60 second club!”

You can also buy two sets of colored penguin erasers and place one penguin on the flashcard in question and the other penguin on the correct key at the piano.

If your students like these, they'll probably love the Cupcake Flashcards or the Fishy Flashcards that are available in the store: www.ComposeCreate.com/store under the Games tab.
